## CAPABILITIES

# RESULTS PER GDB MODULES

## POLITICAL INTEGRITY

The leading positions in the region are held by **Armenia**, **Ukraine**, and **Moldova**, while the lowest results are observed in **Tajikistan** and **Turkmenistan**.

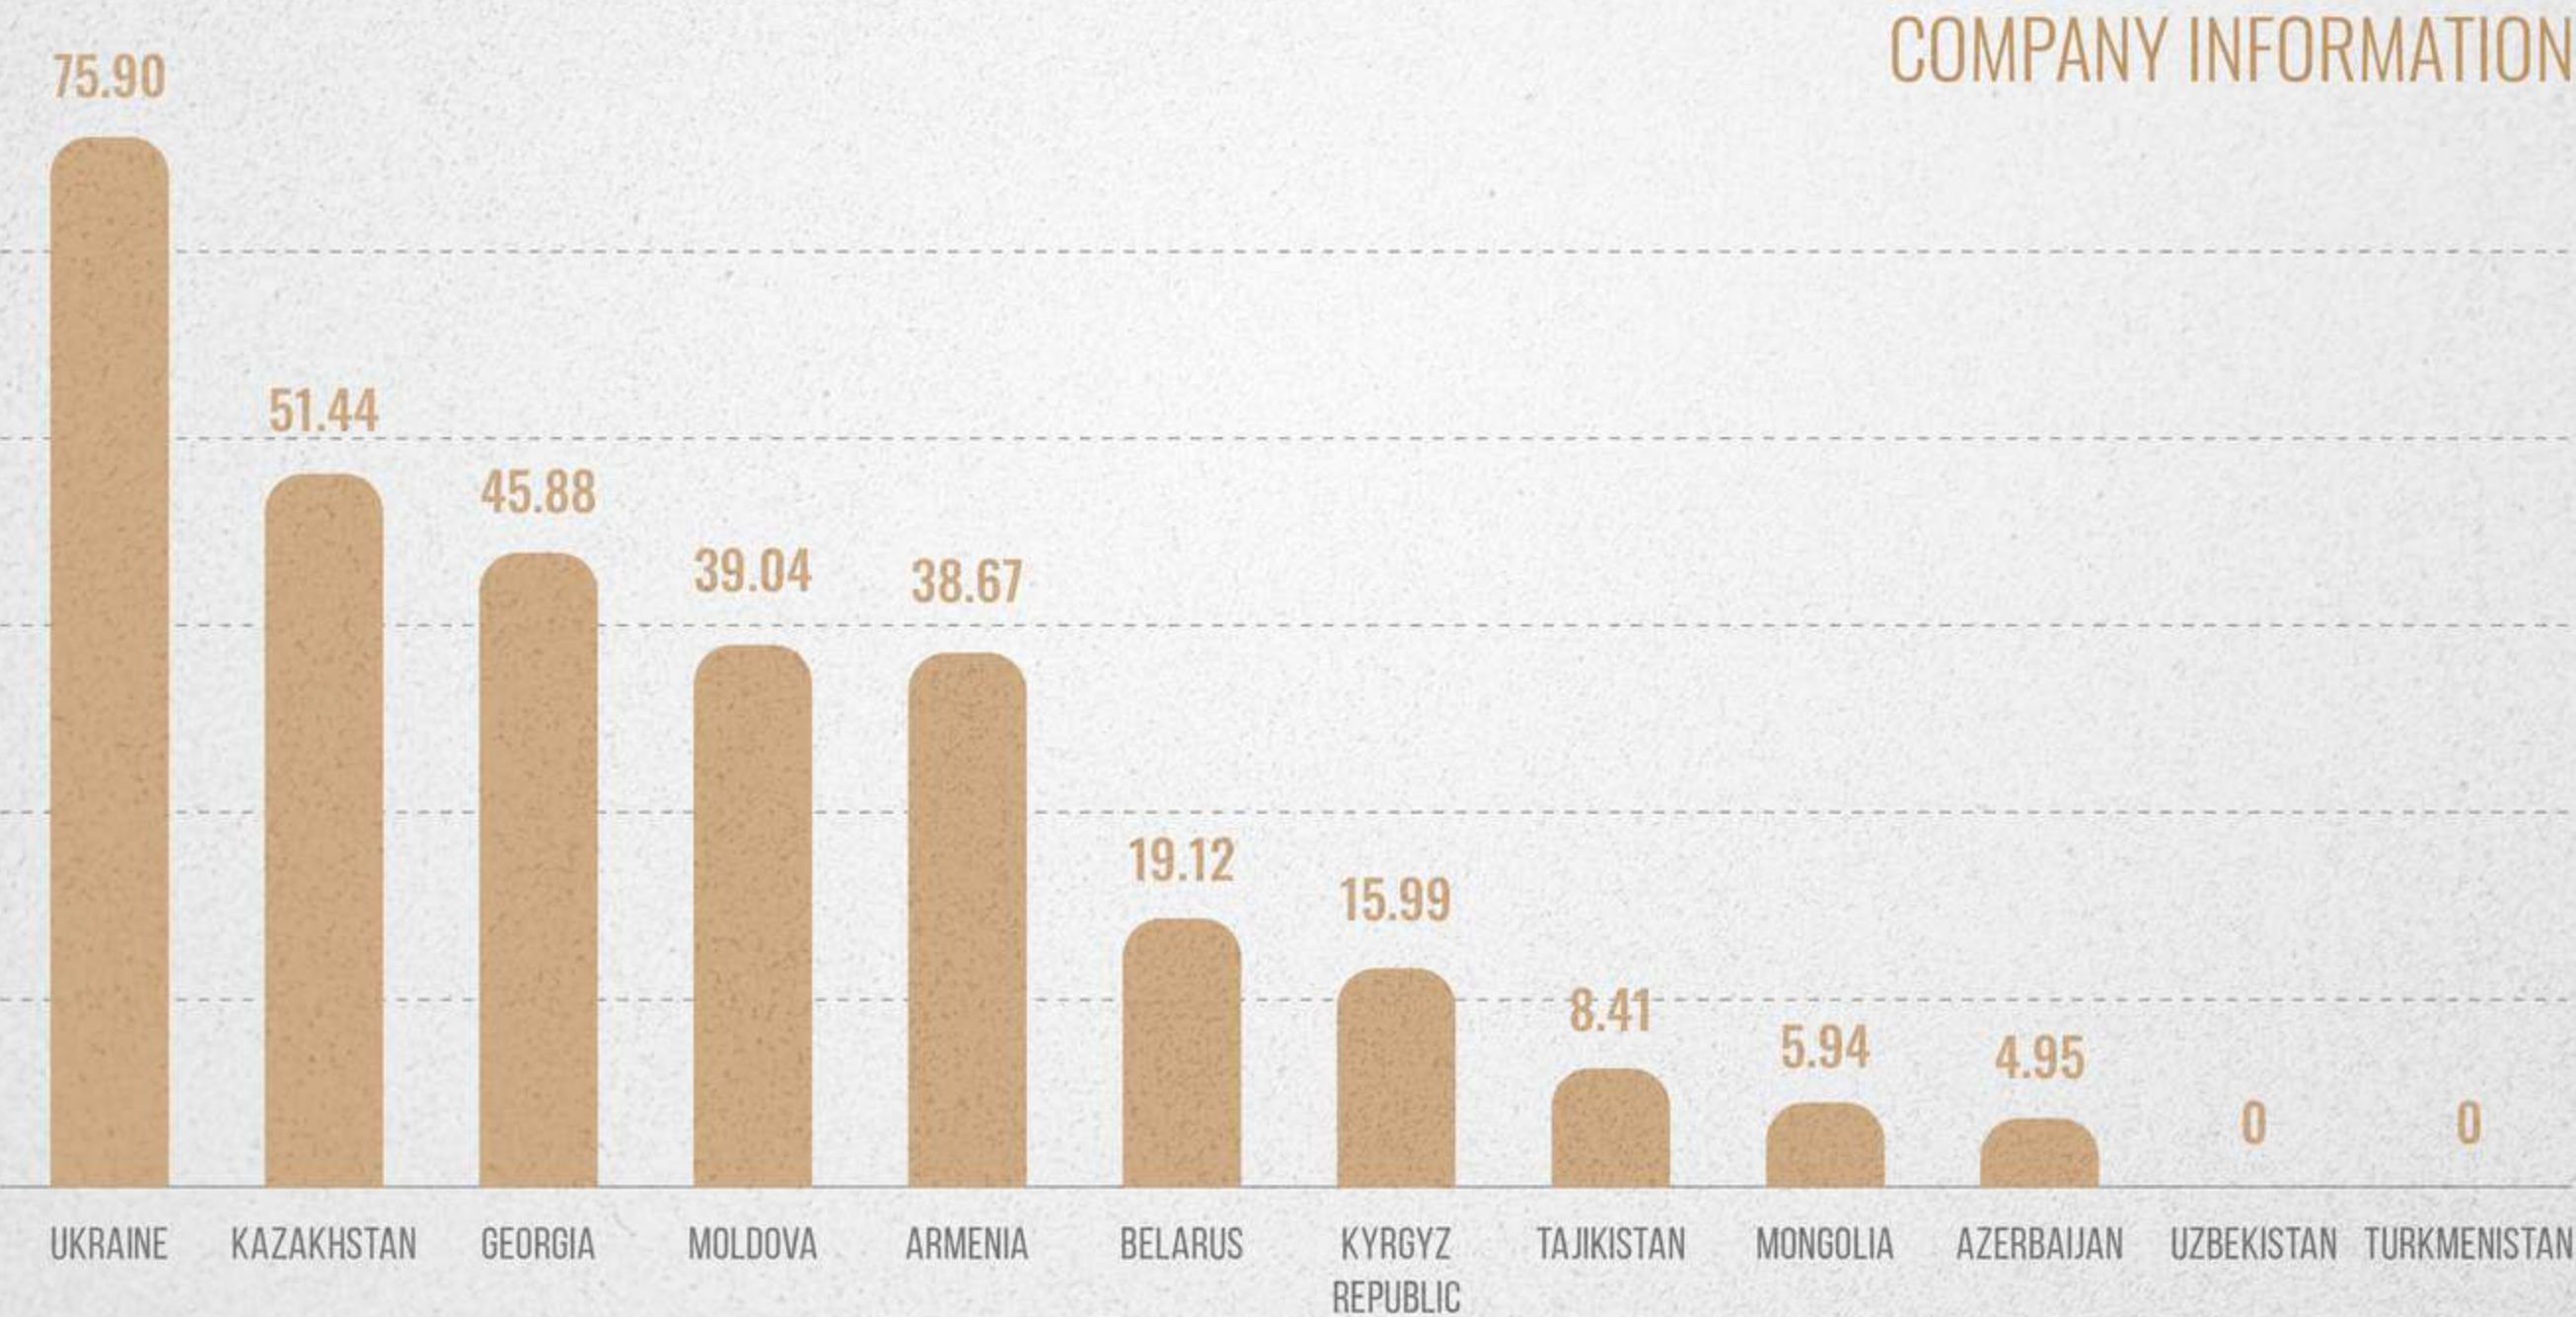

Under this module, **Georgia** has earned the best rating in the Political Finance component and ranks first in the region in this regard.

# RESULTS PER GDB MODULES

## COMPANY INFORMATION

**Ukraine** had the best results with 75.90 points, followed by **Kazakhstan** with 51.44 scores. While **Georgia** was in third place with 45.88 points, despite the low scores in terms of the Beneficial Ownership Regulatory Framework indicator.

# RESULTS PER GDB MODULES

## LAND DATA

This component proved to be quite problematic for the region due to the fact that four countries scored 0 on all indicators.

Relatively high scores were observed in **Ukraine**, **Mongolia**, and **Georgia**, which is due to the existence of a well-maintained cadastral system in these countries.

# RESULTS PER GDB MODULES

## PUBLIC FINANCE

The best results in the region in this regard were observed in **Armenia**. Relatively high results were also observed in the case of **Ukraine, Kazakhstan, and Georgia**.

## PUBLIC FINANCE

# RESULTS PER GDB MODULES

## HEALTH AND COVID-19

**Ukraine** and **Armenia** hold the leading positions in the region with 55.15 and 49.14 points. While the lowest scores were observed in **Turkmenistan** and **Tajikistan**.

## HEALTH AND COVID-19

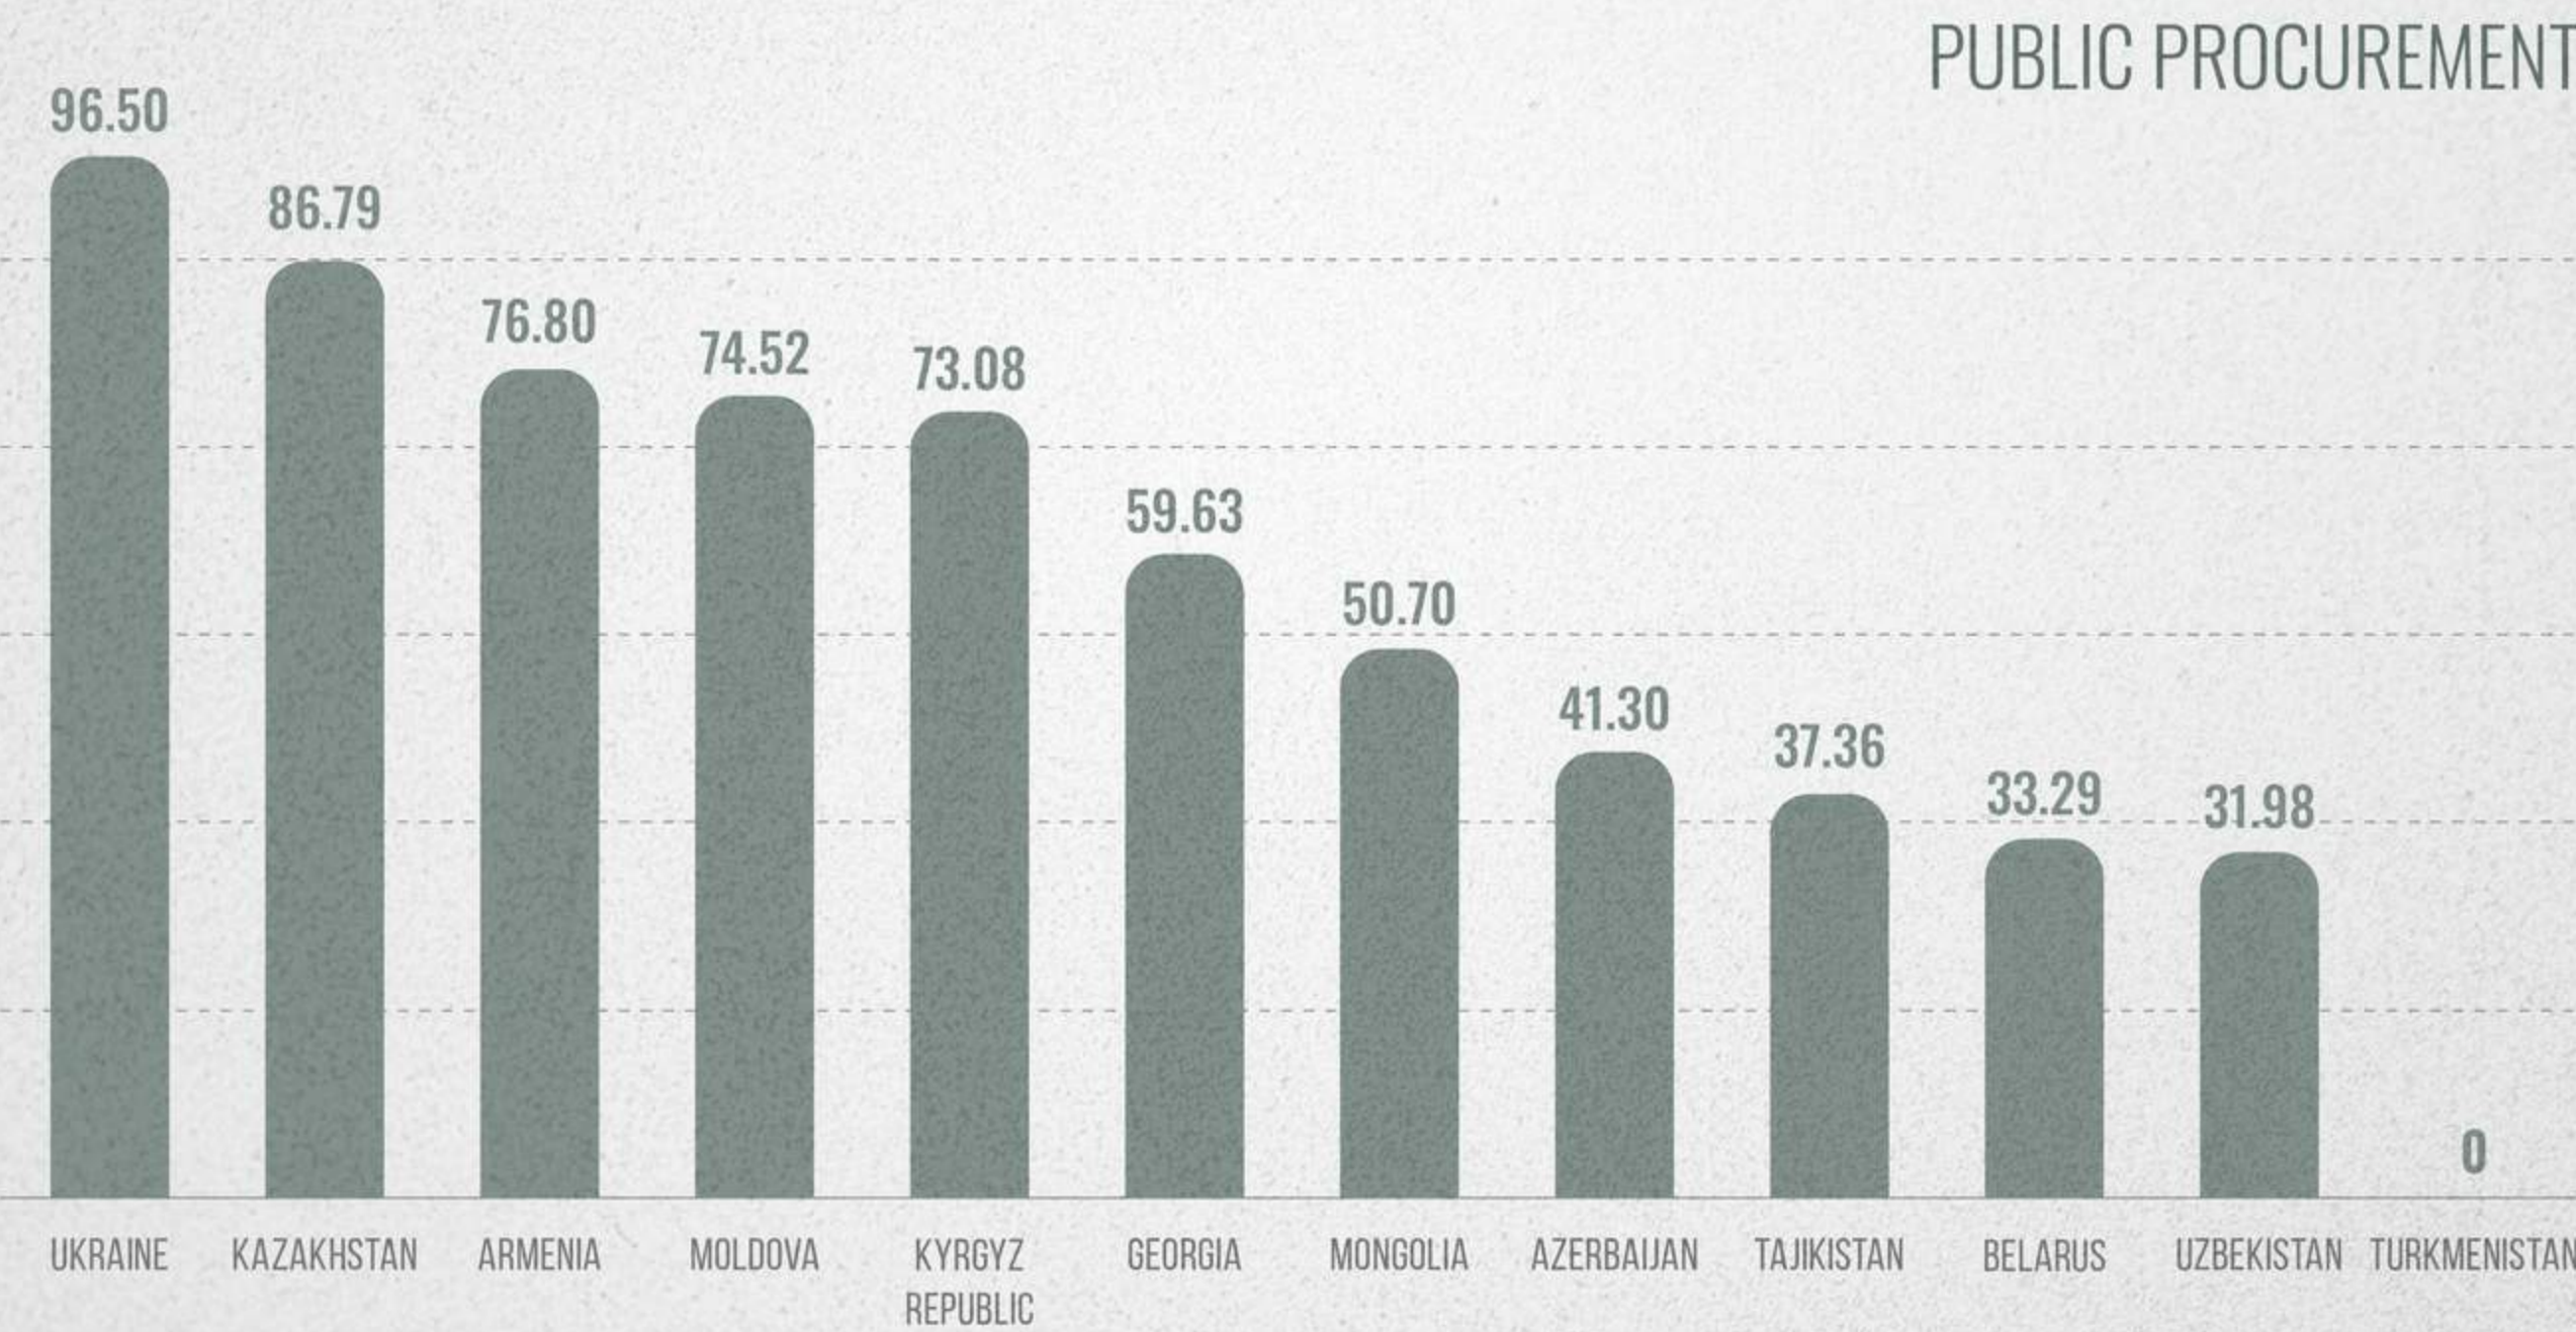

# RESULTS PER GDB MODULES

## PUBLIC PROCUREMENT

The public procurement module is distinguished by relatively high scores in the region, and open contract data standards (OCDS) are widely used.

# RESULTS PER GDB MODULES

## CLIMATE ACTION

In this regard, **Armenia** and **Georgia** hold leading positions in the region in terms of high data availability, although availability in open and machine-readable formats remains a challenge.
